

Alice

This is Alice. A small doxie mix with a big personality. Her tail wags all day long except when she is sleeping. She has been crate trained at night and when the lights go off she is quiet until the sun comes up. She has a playful energy in the morning and is a very good eater. In fact such a good eater that she has a maze bowl to slow her down. She loves her walks and is very good on the leash even walks well with her foster brothers. If she sees a small animal to chase though, make sure you have a tight grip on that leash as she will pull hard and want to chase it. She loves to play tug of war with humans and other dogs. She will fetch toys and bring them back. She will nap in the afternoon in her bed or a lap. If you are on the couch in the evening she will want to be right there with you. She loves being loved and will flop over for a tummy rub. She was confused at first where to go potty but has caught on fast to only go outside. She will bark when people come to the door but settles down quickly. Alice is pure joy and brings a smile to everyone's face. She has a distinct "Z" marking on her back which I think stands for zoom because she is quick.
