

Bumble

Bumble is a beautiful bounding 70 pound ball of love. This 6 year old gentle giant is looing for a forever home where he will be the center of someone's affections and have couch and bed privileges. He loves walks and belly rubs. Bumble is house broken, knows basic commands and walks well on a leash. Bumble is great with small dogs and has shown zero interest in cats or squirrels – However -- He can be rude -- playing inappropriately with larger dogs which can lead to drama. We have been working to teach him proper social etiquette, but a house without other large dogs and an experienced owner would be best. Bumble requires a daily dose of medicine for low thyroid. He is neutered and just had a full dental cleaning. If you are looking for to add some fluffy love to your home Bumble is your boy. Bumble would do best in an active adult household or a family with children 10 years old and above.
