

Cole

Meet Cole, a sweet German Short Hair Pointer/Lab mix puppy. He is a bouncy boy, full of energy and love! He is going to be a big dog--at only 4 months old he already weights 42 lbs and is growing fast.

Cole loves people and other dogs. Sometimes he is fearful when learning new things and meeting new people, but with reassurance, within seconds he is back to his sweet brave self. He is potty trained and will go to the door to let you know he needs out. He dependably sleeps through the night when he's snuggled up with his humans. He is very smart and eager to learn. He's working on leash skills and already walks without pulling. And he is gradually learning to love his crate--with yummy bones and stuffed Kongs he can be happy for short periods of time.

Cole wants nothing more than to spend time with his people...he likes to be right where you are. He needs a home with people who are home more often than not as he's young and needs frequent potty breaks and play time...and lots of cuddles on the couch; and a home with a fenced yard (not invisible/electric fence) to run and play in. He's not right for a home with preschool children or cats.

(A \$300 adoption fee is required.) If you are interested in this dog, please go to the Adopt page of our website where you will find a link to an adoption application form www.chewdogrescue.org

- Adoption Fee \$300
