

Dixie

Looking for a bundle of fun, its Miss Dixie. This little girl of 5 months, loves everyone and hasn't met a dog or cat she didn't like. She loves playing with her stuffed toys, will chase a ball but needs work on the bring back. She is as smart as a whip and a very quick learner and enjoys being cuddled daily. She rides well in a car and loves to go on adventures due to the social creature that she is. Dixie would do best in an active adult household or one with children 12 years and older due to her small size.
