

# Emma Star

Miss Emma Starr is about six years old and weighs around 10 pounds. She has had a very confusing life which left her a bit confused and shy with people. However, she is making such good progress in her foster home. Emma loves to snuggle in blankets and hang around with other small dogs. She has learned to walk on leash although walking in the rain is not on her list of favorite things to do. Emma is just learning that life is okay and that people can be trusted. She will make a great companion for a person who lives a low key lifestyle but who will continue to give Emma new experiences to continue showing her that life can be fun. Emma would do best in an all adult household as children make her nervous.
