

Jando

At 28 pounds and one year old Jando is a very smart dog that likes to learn. He caught onto basic manners in quick order. Jando will make a good dog to take on adventures. A long daily walk would be great. He is very affectionate with his foster family and he has the softest fur to enjoy when cuddling with him. Jando likes to fetch, swim, and play with his toys. Jando is reserved around strangers but will warm up. He will need more training on his leash to make an ideal companion - but he learns fast. He rides okay in cars. Jando would do best in an active all adult household or in a family with respectful children ages 8 years old and older.
