

Jazzy

Are you looking for a petite bundle of love? well here she is, Jazzy! We think she may have French Bulldog or maybe Boston Terrier or Pug in her genetics but not the muzzle, so easy breathing. We just don't know. Jazzy is 3 months old and weighs 7 lbs. She will be a small dog we guess, no more than 10-12 lbs. when grown. This little girl is playful, good with cats, other dogs, and loves playing with her toys in the yard. She is very smart and only needs to be shown what you want from her, and she gets it. Her breed mixes give her a determination in everything she does yet she doesn't like being alone.

Jazzy would do best in an all-adult home with another small dog or with respectful children 12 and older.
