

# Lino

This oh-so-cute guy is Lino. He is full of energy and lots of love. He's a tiny little guy that is the last one to stop playing and tumbling around. He would be great with another buddy that loves to play and is amazing with kids. He also likes to cuddle when he's not playing and will bury his head into your neck. He's not quite potty trained but he waits patiently for you to put his leash on and is great on a leash. Lino is about 5 months old and weighs 15 lbs. He needs a home with a fenced yard (not invisible/electric fence) and with someone who is home more than not so they can help perfect his potty training...he's almost there, but not quite. He'll do best in a home with all adults or one with school age children.
