

Midge

Little Midge is smart as a button and full of puppy energy. Midge is a year old and around 8 pounds. She loves to play with her tug toy and fetch the ball. She also gets the "zoomies" on a daily basis and races around the house and fenced yard. Midge rides well in the car. She needs leash work to go on daily walks. Midge is a very friendly little dog and seems to love everyone. She gets along with other dogs too. Oh yes, she loves to cuddle. Midge would do best in an all adult household or in a family with respectful children 10 years old and older. Experience with this breed is a plus.
