

Monte

Sweet Monte is 7 weeks old . We expect that he might be about 40 pounds when fully grown, He is a fun, playful puppy right now. Monte is a snuggle bug. Of course, being a puppy, he needs to have lots of attention, training, and plenty of toys to nibble on and carry around with him. He likes other dogs and older kids and seems to be confident in most situations for his age. Monte would do best in an adult only home or a family with children 8 years old and up. He needs a home where someone is around most of the time to potty train him and to give him the attention a small puppy needs to grow into a happy, well mannered dog. Monte will be able to go to his forever home after he is 8 weeks old and has his first vaccine.
