

Oso & Chopporo

Please meet OSO and Chopporo two very charming poodle mixes from Mexico. Their owner became ill with Covid and had to go to long term care, so these little guys needed a soft place to land. They are 10 years old and in great health. They sure don't seem to be 10 yrs old based on their nightly zoomies around the yard. They are bonded and have been together their whole lives, so we don't want to split them up. They love to play and rough house together. They walk really well on a leash and love to go on car rides. They are very sweet, affectionate and are looking for a soft lap to snuggle. They are also quiet and don't bark much at all. They love their person/people and will be your constant companions. They don't wander far from their foster Mom, but to be on the safe side they would need a little fenced yard. They are fine with other dogs, but will mainly ignore them. They are suited for a quiet adult home or a home with older respectful children. Can you provide them the great new life they deserve here in the US?

- Adoption Fee \$400 for the pair
- Current on vaccinations
- Neutered/Spayed
- Poodle Mix
- Weight: 10-11 lbs
- Age: 10 years
- Microchipped
