

# Prince

Prince is a playful little 9 week old terrier mix puppy. He is around 4-5 pounds now and will probably be about 12-15 pounds when he is an adult. He is playful, snuggly, and very confident. He loves car rides and meeting new people. Prince would do best in an all adult home or a family with respectful children 8 years and older. He needs a home where someone is around most of the time to potty train him and to give him the attention a small puppy needs to grow into a happy, well mannered dog.

- Adoption Fee \$300
- Up to Date on Vaccinations
- Breed: Terrier Mix
- Microchipped
- Age: 9 weeks
