

# Remy

Little Miss Remy is small in size but has a big personality that makes up for it. She is sweet and affectionate. She likes to lie near you but she also likes her personal space and will let you know if you are trying to handle or pet her too much. Remy is six months old so she has lots of puppy energy. She loves her walks, time at daycare with the other dogs, and will entertain herself by running around the house throwing her toys in the air and pouncing on them. Since she is a puppy, appropriate things to chew on are also very important. Remy will need a family that will continue to socialize her and expand her world slowly and safely. She is a happy little girl when she feels safe and relaxed. Remy would do best in an all adult family.
