

Scooby

Scooby is a sweet puppy that likes to play with other dogs - he loves doggie daycare. He is about 20 pounds and around 4 months old. Scooby also enjoys riding in cars, going for walks (but needs more leash work) and enjoys playing with stuffed toys. He loves his treats and will learn quickly when he is rewarded. Scooby also likes to cuddle at times. He can be a little reserved when he first meets people. Scooby would do best with an active all adult family or with a family with respectful children ages 8 years old and older. Because we think he is a scent hound mix, he will need a fenced yard (not electric or invisible fence) as these type of dogs cannot resist "following their noses"
