

Titus

Calm and full of love. He is a dog with medium energy - walks well on leash - loves his walks but also likes to settle in and relax with his people. He was afraid of car rides at first but has since found that they mean fun things such as going for walks in the woods, or the beach or other interesting places. Titus is just one of those dogs that makes a great companion. He would do best in an all adult household or with families with respectful children 8 years and older.
